

HAWAIIAN ELECTRIC COMPANY, INC.

EAST OAHU TRANSMISSION PROJECT

DIRECT TESTIMONIES AND EXHIBITS SPONSORSHIP LIST

HECO T-1	T. L. Joaquin
TESTIMONY	Project Need, Selection Process (Policy)
HECO-100	Educational Background and Experience
HECO-101	Decision Matrix
HECO T-2	K. J. Wong
TESTIMONY	Description of the Proposed Project and Project Background
HECO-200	Educational Background and Experience
HECO-201	Map, Route for Kamoku 46kV Underground Alternative-Expanded
HECO-202	Color Photograph - Route for Kamoku 46kV Underground Alternative
HECO-203	Color Photograph - Route for Kamoku 46kV Underground Alternative - Fern-Hauoli-Lime Streets, Date-Pumehana Streets
HECO-204	Color Photograph - Route for Kamoku 46kV Underground Alternative - Date Street
HECO-205	Color Photograph - Route for Kamoku 46kV Underground Alternative - Winam Avenue - Mooheau Avenue
HECO-206	Photograph - Kamoku Substation, Transformers and Related Equipment
HECO-207	Map - Ena, Waikiki, Kuhio, Kapahulu, Makaloa, McCully and Kewalo Substations
HECO-208	Color Photograph - Route for Kamoku 46kV Underground Alternative Expanded
HECO-209	Photograph - Archer Substation, Transformers and Related Equipment
HECO-210	East Oahu Power Demand
HECO-211	Figure ES-4, Revised Final EIS
HECO-212	HRS 269-27.6 (Act 95) PUC Process
HECO-213	Chapter 343, EIS Process
HECO-214	Chapter 183C, CDUA Process

HECO T-3	R. Pollock
TESTIMONY	Transmission System Planning Process Overview, Development and Application of Transmission System Planning Criteria, Review of HECO Transmission Planning Criteria
HECO-300	Educational Background and Experience
HECO T-4	S. Y. Ishikawa
TESTIMONY	Planning/Project Need
HECO-400	Educational Background and Experience
HECO-401	Map - HECO 138 kV Transmission System
HECO-402	Map - HECO 46 kV Subtransmission System
HECO-403	Northern and Southern 138kV Transmission Corridors to East Oahu
HECO-404	Downtown, Koolau, and Pukele Substation Load Area
HECO-405	Koolau/Pukele Overload Concern
HECO-406	HECO's Transmission System Planning Criteria
HECO-407	Projected MW Overload on Koolau/Pukele Transmission Lines for Base and High Load Forecast Scenarios
HECO-408	Downtown Overload Concern
HECO-409	Comparison of Forecasts
HECO-410	HECO Typical Daily Load Profile
HECO-411	Koolau/Pukele Area Forecast
HECO-412	Koolau-Pukele Transmission Overload Problem
HECO-413	Comparison of DG and CHP Forecasts
HECO-414	Color Photograph - 138kV Transmission Lines in Koolau Mountains
HECO-415	138kV Transmission Feeds to the Archer, Kewalo and Kamoku Substations
HECO-416	Kamoku-Pukele 138kV Transmission Line
HECO-417	Simplified Diagram of Archer-Kamoku-Pukele Feeder Connection for Kamoku 46 kV Alternative (Normal)
HECO-418	Simplified Diagram of Existing Pukele Feeders
HECO-419	Simplified Diagram of Archer-Kamoku-Koolau-Pukele Feeder Connection for Kamoku 46 kV Alternative Expanded Cooke Street - King Street (Normal)
HECO-420	Simplified Diagram of Archer-Kamoku-Pukele Feeder Connection for Kamoku 46 kV Alternative (Downtown 138 kV Line Contingency)
HECO-421	Effectiveness of the Kamoku-Pukele Alternatives

<u>HECO T-4</u>	<u>S. Y. Ishikawa (continued)</u>
HECO-422	Three Alternatives Addressing Reliability and Overload Concerns
HECO-423	Simplified Diagram of Archer-Kamoku-Pukele Feeder Connection for Kamoku 46 kV Alternative (Downtown 138 kV Line Contingency)
HECO-424	Simplified Diagram of Archer-Kamoku-Koolau-Pukele Feeder Connection for Kamoku 46 kV Underground Alternative Expanded Cooke Street - King Street (Koolau-Pukele 138 kV Line Contingency)
HECO-425	Kamoku 46 kV Underground - Expanded Alternative, Pukele Reliability Concern, Substation Impact Comparison
HECO-426	Current Carrying Capacity, Outdoor Bare Conductors
<u>HECO T-5</u>	<u>A. H. Stewart</u>
TESTIMONY	Live Working
HECO-500	Educational Background and Experience
<u>HECO T-6</u>	<u>K. J. Wong</u>
TESTIMONY	Description of Alternatives and Schedule
HECO-600	Color Photograph - Route for Kamoku-Pukele 138kV Underground Line Route
HECO-601	Photograph - Pumping Facility, Typical Equipment
HECO-602	Memo: East Oahu Transmission Project, Permitting and Engineering Schedules
HECO-603	Memo: East Oahu Transmission Project, Kamoku 46kV Underground Alternative - Expanded Phase 2 Coordination
<u>HECO T-7</u>	<u>K. T. Morikami</u>
TESTIMONY	Routing
HECO-700	Educational Background and Experience
HECO-701	Memo: East Oahu Transmission Project, Kamoku 46kV Underground Alternatives - Routing

<u>HECO T-8</u>	<u>T. L. Harrington</u>
TESTIMONY	Construction Schedule
HECO-800	Resume of Work Experience
HECO-801	Schedule and Work Sequencing for the construction of the Kamoku-Pukele 138kV Underground Option
HECO-802	Schedule and Work Sequencing for the construction of the Kamoku 46kV Underground Alternative
HECO-803	Schedule and Work Sequencing for the construction of the Kamoku 46kV Underground Expanded Alternative
HECO-804	Schedule and Work Sequencing for the construction of the Kamoku 46kV Underground Expanded Alternative, Phases 1 & 2
<u>HECO T-9</u>	<u>E. F. Oshiro</u>
TESTIMONY	Project Cost
HECO-900	Educational Background and Experience
HECO-901	Technical Memo: East Oahu Transmission Project, Cost Estimate Development for the Evaluated Alternatives
<u>HECO T-10</u>	<u>J. M. Silva</u>
TESTIMONY	Engineering Evaluation of Electric and Magnetic Fields
HECO-1000	Educational Background and Experience
<u>HECO T-11</u>	<u>W. A. Bonnet</u>
TESTIMONY	EMF Policy
HECO-1100	Educational Background and Experience
HECO-1101	DOH Policy Relating to Electric and Magnetic Fields from Power-Frequency Sources

HECO T-12 R. A. Alm

TESTIMONY Public Sentiment

HECO-1200 Educational Background and Experience

HECO-1201 HECO News Release: "HECO Selects East Oahu
Transmission Project Alternative", October 8, 2003

HECO-1202 HECO Commentary "Vital lessons learned in power-line
meetings", Honolulu Advertiser, September 28, 2003
